Development Overview

La Caleta reflects **OFYS**'s commitment to building with purpose—creating homes that feel timeless, enduring, and alive within their surroundings. More than a collection of residences, La Caleta is a community shaped by connection and inspired by the natural beauty that defines Costa Rica's Pacific coast.

Each home features open, light-filled spaces that flow seamlessly between indoor and outdoor living, combining modern design with North American quality and comfort. Residences are thoughtfully positioned to preserve privacy while maximizing views and natural ventilation.

With sustainable construction, premium finishes, and meticulous craftsmanship at its core, La Caleta offers a lifestyle rooted in ease, authenticity, and long-term value.

Project: La Caleta

An aerial photograph of a tropical coastline. The water is a vibrant turquoise color, with white waves crashing against the shore. A small, rocky island with a patch of green vegetation sits in the water. The surrounding land is covered in dense, lush green forest. In the distance, more hills and a small town with some buildings are visible under a bright blue sky with scattered white clouds. Several small white sailboats are anchored in the bay.

“In the heart of Guanacaste, life flows with
effortless grace—where the rhythm of
the Pacific nurtures connection, balance,
and a lasting sense of belonging.”
